## Conveyor/Unloading Pits

**QUICK INSTALLATION**

**QUALITY CONTROL**

**MINIMAL DOWN TIME**

**CUSTOMIZABLE**

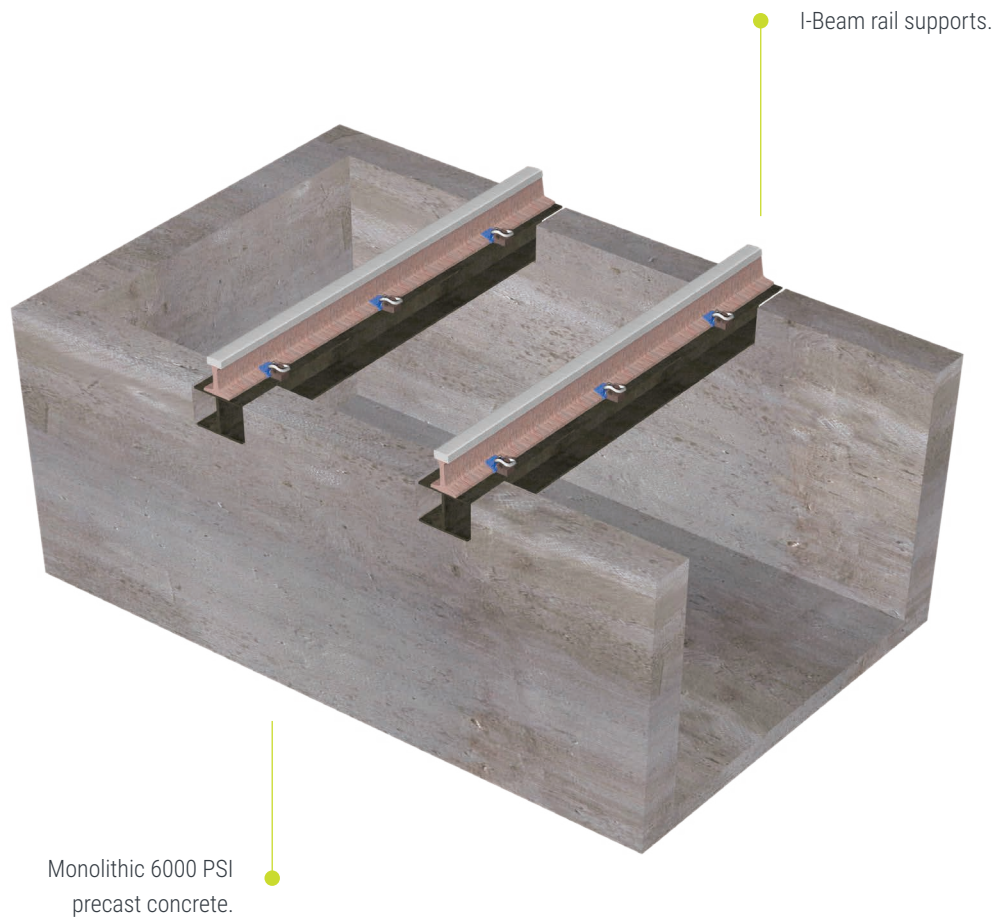

**DECADES**  
of reliable service.

Our custom built conveyor/unloading pits are engineered to meet AREMA standards. Our systems install quickly with minimal quality control required in the field, allowing conveying and track operations to begin soon after installation. Each pit is manufactured to meet site conditions with options including: ladder steps, pre-applied waterproofing, and sump drains.

# FEATURES

and benefits.

## Applications:

- Rail unloading
- Dry bulk material unloading
- Industrial conveyance/storage
