

# STARTRACK<sup>®</sup>

Rail Scale

EMBEDDED CONNECTIONS

QUALITY ASSURANCE

QUICK INSTALLATION

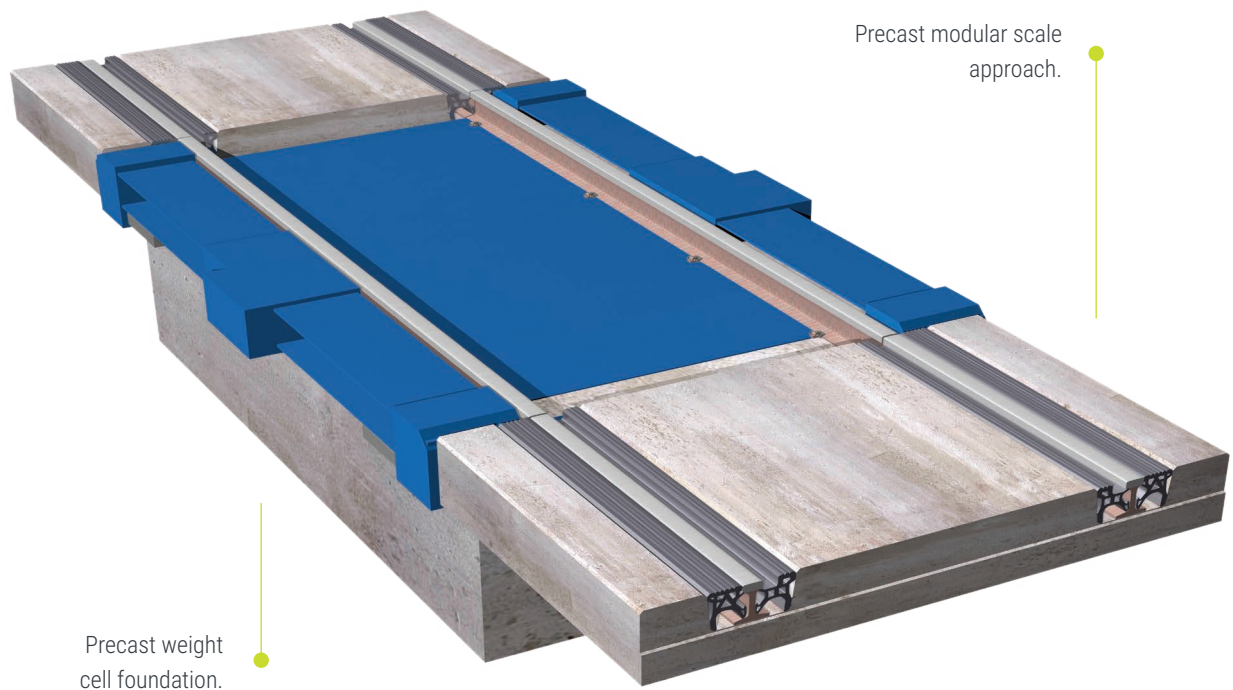

**DECADES**  
of reliable service.

Many weigh-in-motion rail scales require concrete approaches and foundations for the weigh cell. We team with rail scale manufacturers to provide modular precast track support systems to meet scale requirements, allowing projects to be installed quickly with no doubts on quality.

# FEATURES

and benefits.

- Engineered to AREMA Standards.
- Foundations include embedded weigh cell connections.
- Galvanized E-Clip fasteners and nylon insulators.
- Class I Railroad approved.
