

STARTRACK[®]

Standard Crossing

EASY INSTALLATION

COST SAVING

DURABLE & RELIABLE

MINIMAL MAINTENANCE

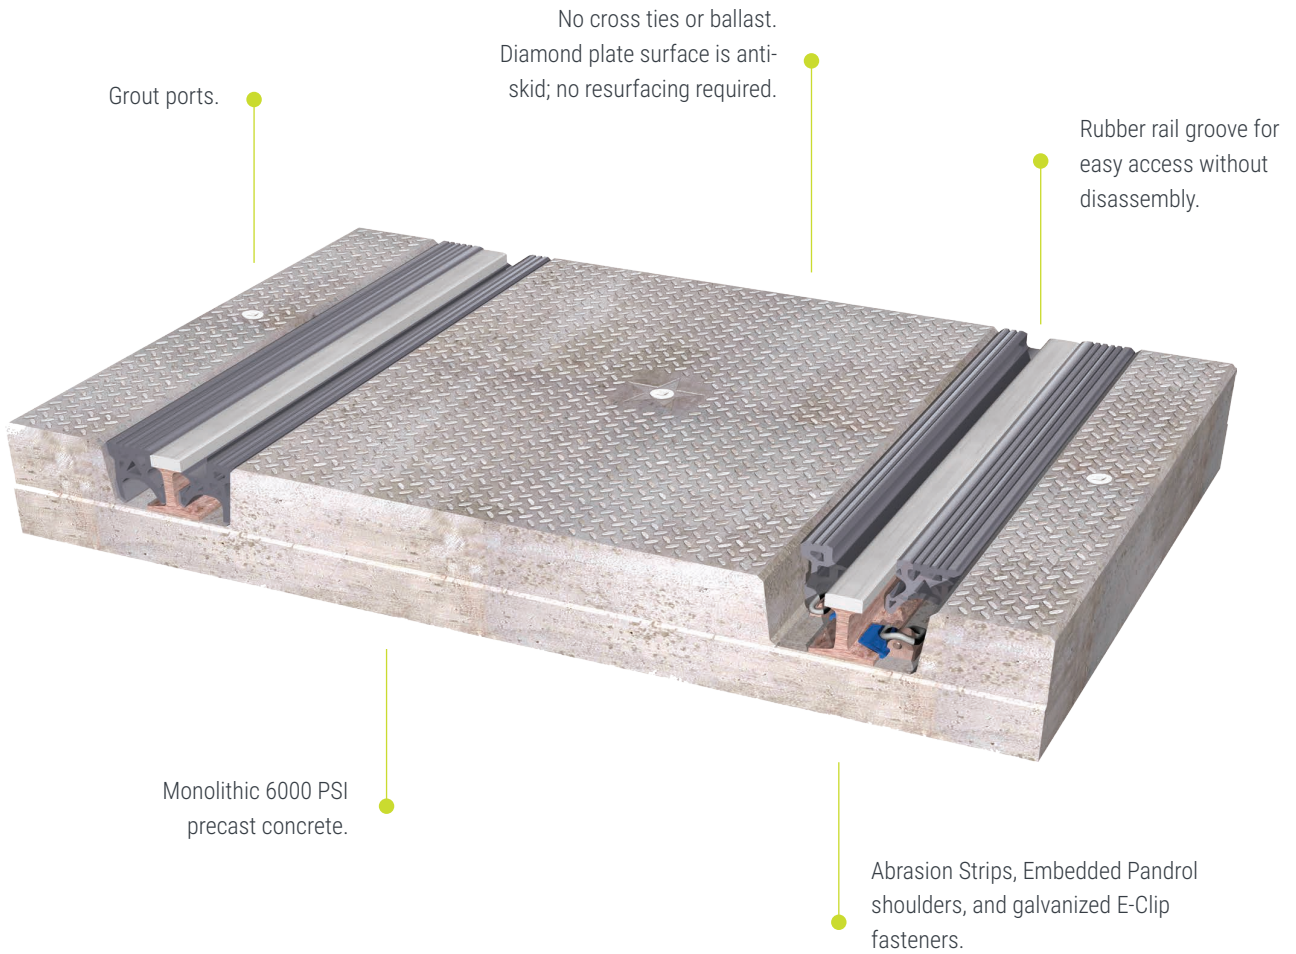

DECADES
of reliable service.

Our Standard StarTrack[®] is designed for Cooper E-80 Loading with 60% impact; a long lasting, maintenance free crossing surface for freight, commuter, and light rail applications. Standard crossings are 8' wide x 14" thick and are available in 3 lengths (5', 7.5', 17.5'). Custom pie-shaped pieces are available to meet the curvature of the track.

FEATURES

and benefits.

Standard Sizes:

- 5' x 8' x 14"
- 7' 6" x 8' x 14"
- 17' 6" x 8' x 14"

Applications for freight, commuter or light rail:

- Highway-railway grade crossings
- At-grade crossing surfaces
- Embedded track - industrial and transit
- Curved track
- Bridge deck
- Rail scale approaches
- Tunnel track
- Frog crossing
