Cast Iron Cover

Cast Iron Ring

Raw Material Specifications:

- Meter Boxes are high-density Polyethylene, one-piece molded construction
- Wall thickness minimum .550"
- Vertical load rating minimum 15,000 lbs.
- Sidewall loading of 200 lb side load, applied with a 4" X 4" plate.
- Multi-layer wall construction
- Black exterior surface to provide UV protection
- Gray foaming for strength and insulating value
- White interior surface for ease of meter reading
- Manufactured by Oldcastle Precast Enclosure Solutions

Cast Iron Meter Ring and Lid Specifications:

- Made of cast iron conforming to ASTM A48 standards and marked with country of origin
- Coated with a factory applied water based asphalt paint
- Castings are ground smooth and cleaned by shot blasting, uniform quality, free from sand holes, shrinkage, cracks and other surface defects, with a dimensional tolerance of +/- 1/16" per foot based on the accepted foundry tolerances outlined in the Iron Castings Handbook published by the American Foundry Society.

Product Load Rating:

Medium Duty : Non-deliberate Traffic

For use in non-vehicular traffic situations only.

Note:

Actual load rating is determined by the box and cover combination. Weights and dimensions may vary slightly
