

November 2017

Recently, Kayla Hanson, director of technical services, traveled to San Diego State University to conduct a series of presentations covering #precast #concrete. As part of that visit, NPCA organized a plant tour at Oldcastle Precast's plant in Lakeside, Calif. for civil #engineering graduate students in CONE 651. According to Professor Thais Alves, students greatly enjoyed seeing the precast process unfold in front of them and were very grateful for the experience.
