1. Nettech gross pollutant interceptor is available in sizes to
   fit most industry-standard circular culverts (see specifications).
   Rectangular culverts may be accommodated on a custom basis.
   Nets are also available in a range of mesh sizes and lengths.
2. Nettech shall have a mechanism to allow it to discharge its net
   when full of debris, tethering the captured litter for retrieval
   while preventing backup of the stormwater system.
3. Nettech assembly shall be constructed from stainless steel
   (Type 304) with UV-resistant nylon netting.
4. Allow a minimum of 10 feet of clearance from the outfall for
   proper Nettech function.

KriStar Enterprises, Inc., Santa Rosa, CA (800) 579-8819
