

Delivering Reliability

Pre-Plumbed Vaults

Water-Management

The Smart Pre-Packaged Vault Solution

“Every system is assembled and tested before delivery.”

Pre-Plumbed Vaults

Equipment shelters for water vaults are used for the underground installation of water meters, detector check valves for sprinkler systems, pressure-reducing valves and backflow prevention valves. We can custom engineer our water vaults to meet job-specific applications, and we offer a vast number of sizes. To further facilitate quick and easy installation, we can also apply both interior and exterior coatings in-house.

Features & Benefits

- Easy Installation
- Water Tight Seals
- Quick-Connections
- Industrial/Municipal
- Pressure Tested
- No Lost Cure Time
- Coatings Available
- Fully Engineered
- Standard or Custom
- Industry Leading QC
- ACPA, NCPA Certified
