

## FOR IMMEDIATE RELEASE

### Oldcastle Enclosures Houston, Texas Builds Bicycles for Houston Area Students

HOUSTON, Texas. (January 2017) – Previous to the holidays, Oldcastle Enclosures Houston teamed with CYCLE Houston to build bicycles for local students of Title 1 Houston Schools. This is the first year Houston Enclosures volunteered to help with CYCLE Houston, a children's charity that rewards students with new bicycles for achieving better academic performance in the classroom.

Honored and extremely enthusiastic to contribute to such a worthy cause in the Houston area, the Enclosures Houston team assembled several hundred bicycles for the organization to donate to the Houston schools. They are looking forward to continuing their efforts to improve literacy and help Houston's young students ride their way to success.

"We are truly privileged to be the newest team member of the CYCLE Houston organization, and look forward to our future participation," commented Plant Manager Sean Dvoran. "The mission of CYCLE Houston to help low-income students through education perfectly aligns with our employees' values."

Since being founded in 2000, CYCLE Houston has helped to donate over 150,000 bicycles to young students of Title 1 Schools. Recent focus has shifted from gift-giving to awarding bicycles for academic achievements. The main focus being children, education, and literacy.
