Oldcastle Precast Lexington Participates in 2nd Annual Blood Drive

LEXINGTON, Ky. (AUGUST 2017) – Nationwide, approximately 36,000 blood donations are needed each day. With no substitute for human blood, those in need rely on the kindness of donations from volunteers. To raise awareness about the importance of blood donation, Oldcastle Precast-Lexington proudly announces their second annual Blood Drive Program.

On Friday, June 16th, 2017, Oldcastle Precast, Lexington, Ky. held their second annual blood drive for the Kentucky Blood Center. Achieving a new record, 18 volunteers donated blood – 2 more than last year.

Plant Accountant, Tammie Morris, remarked “Our employees recognize the great need for this service and many did not hesitate to step up and give blood to save someone else’s life. We had McDonald’s breakfast and orange juice to get the blood pumping, as well as snacks from the KBC afterwards! As you can see by the picture, almost everyone made it. Just joking!! There were just a few we could not find when the picture was taken.”

Oldcastle Precast – Lexington hopes to make this an annual event and to beat the previous year’s record every time.

The challenge to other Oldcastle Precast plants - Make this a yearly event as well! If every plant would participate, just once a year, think of the difference our company could make and how many lives would be saved.

Participants were: standing left to right – Vicente Flores, Tammie Morris, Tyler Terry, Bill Holbrook, Jeff McKinley, Ted Nagel, Linda Bradford, Doug Goodwin, Dave Bolton, Tony Lewis. Front row – Jesus Cruz, Sergio Centeno, Manuel Macias & Juan Lopez (on ground). Those not pictured are: Javier Moncayo, Rick Lynch, Patrick McClanahan and Derek Hensley.

Thank you to everyone who participated this year.

About Oldcastle Precast: Oldcastle Precast is the clear choice for building products and services for North American infrastructure projects. We are a leading provider of engineered product solutions nationwide to a number of market sectors including: Water, Communications, Energy, and Transportation.
