Oldcastle Precast Mansfield Participates in Longhorn Boy Scouts of America Fundraiser

MANSFIELD, Texas (JUNE 2017) – On May 18th, members of Oldcastle Precast’s Mansfield, Texas facility participated in a sporting clays competition fundraiser, benefiting the Longhorn Council, Boy Scouts of America, based in Fort Worth, Texas. The event was hosted by Oncor Electric Delivery, along with Delta Oil & Gas and Hillwood Properties at the Alpine Shooting Range in Ft. Worth, Texas.

Oldcastle Precast Sales Manager Tina Eaton organized two teams comprised of our core customers who install Oldcastle Precast structures for Oncor Electric Delivery, a long valued customer of Oldcastle Precast. The two teams consisted of members from John Burns Construction Company, Larrett Inc., Mission Site Services and WillBros T&D Services.

More than 250 people from the Dallas/Ft. Worth metroplex area participated in the team-based sporting clays competition. Sporting clays is the closest thing to real field shooting of all shotgun sports.

Rather than having clay birds thrown from standardized distances and angles as with skeet or trap, sporting clays courses are designed to simulate the hunting of ducks, pheasants, other upland birds, and even rabbits.

Furthermore, special guest Ft. Worth City Mayor Betsy Price, ready and willing, anchored a team and provided the keynote speech at the luncheon.

The event was an overwhelming success, raising more than \$170,000 for the Boy Scouts of America Scoutreach program which focuses on character development for at-risk youth in the inner city.

“The event was an enormous opportunity to make a difference in the lives of the youth within our community. We are honored to join with our business partners to provide essential support for the Longhorn Council Scoutreach program.” said Tina Eaton, Oldcastle Precast Sales Manager.

Jim Greer, Chief Operating Officer for Oncor Electric Delivery applauded the efforts of everyone attending and thanked every participant and sponsor for their support of the program.

About Oldcastle Precast: Oldcastle Precast is the clear choice for building products and services for North American infrastructure projects. We are a leading provider of engineered product solutions nationwide to a number of market sectors including: Water, Communications, Energy, and Transportation.
