## **Safety Milestone – 2 years Without a Recordable Injury at Oldcastle Precast Morgan Hill**

MORGAN HILL, Calif. (JUNE 2017) – Oldcastle Precast is proud to recognize the commitment to safety by the team at their Morgan Hill facility. To date, the plant has worked more than 2 years without an OSHA Recordable Injury. Oldcastle Precast Morgan Hill manufactures precast architectural walls for electrical sub-stations, stores, tract housing and other commercial/industrial sites.

The Morgan Hill facility reached this two-year safety milestone on March 31, 2017, attaining 126,853 man-hours without a recordable injury.

“Their commitment to safety is commendable and employee engagement evident through the results they have achieved,” stated Plant Manager Jason Jess. “Each team member has contributed to the strong safety culture on site and the ongoing record of accomplishment continues today. We look forward to the next two years and beyond. Congratulations to everyone at Morgan Hill for attaining this safety milestone.”

Oldcastle Precast’s relentless and continued safety efforts have created a culture where safety is the most important aspect of their business, because without their employees, servicing their customers is impossible.

*About Oldcastle Precast:* Oldcastle Precast is the clear choice for building products and services for North American infrastructure projects. We are a leading provider of engineered product solutions nationwide to a number of market sectors including: Water, Communications, Energy, and Transportation.
