## **Plant Expansion for Oldcastle Precast Fuquay-Varina Includes Addition of Third Overhead Crane and Offices**

FUQUAY-VARINA, N.C. (JUNE 2017) – To continue to meet the growing demand for infrastructure products, Oldcastle Precast initiated a plant expansion of the production capacity at their precast concrete facility in Fuquay-Varina, North Carolina.

The expansion included additional production space at the north end of their facility which included a third overhead crane, a new employee break room and locker/restroom as well as a new administration office.

“The administration staff is definitely excited about the new office area at Fuquay-Varina. After working in office trailers for the last six months, the office team is thrilled with their new workplace,” said Craig Cheek, Oldcastle Precast Regional Operations Manager. “We are thrilled with all the great things happening in Fuquay and are very proud of the accomplishments the team has had and we are looking forward to the continued improvements in Fuquay-Varina.”
