

RAIL UNLOADING/CONVEYOR PIT

Oldcastle Precast manufactures custom rail unloading/conveyor pits engineered to meet AREMA Standards. Our systems install quickly with minimal QC required in the field, allowing conveying and track operations to begin soon after installation. Each pit is manufactured to meet site conditions with options including: ladder steps, pre-applied waterproofing, and sump drains.

APPLICATIONS

- > Rail Unloading
- > Industrial Conveyance/Storage
- > Dry Bulk Material Unloading

FEATURES

Engineered to AREMA Standards
Customized to meet specific project needs
Class I Railroad approved
Monolithic, one-piece casting

BENEFITS

Pre engineered
Less construction time
Inspection prior to track outage
Quality control of Oldcastle Precast
