

# SCALE APPROACH & FOUNDATION

Many rail scales require concrete approaches and foundations for the weigh cell. We team with rail scale manufacturers to provide modular precast track support systems to meet specific scale and foundation requirements, allowing projects to be installed quickly while ensuring Quality Control standards.

## FEATURES

Engineered to AREMA Standards
Foundations include embedded weigh cell connections
Customized and precast to meet specific project needs
Galvanized E-Clip Fasteners & Nylon Insulators
Class I Railroad approved
Monolithic, one-piece casting

## BENEFITS

Pre-engineered
Quality assurance of scale manufacturer
Less construction time
Rail access & standard industry fastener
Inspection prior to track outage
Quality control of Oldcastle Precast
