

# LOCOMOTIVE-TRAIN INSPECTION PIT

Oldcastle Precast manufactures inspection pits which provide safe access for locomotive and train set maintenance and are easily customized with lighting, electrical systems, drainage and steps. Pits are available in multiple sizes for both indoor and outdoor rail facilities.

## APPLICATIONS

> Maintenance Facilities

> Freight - Class I & Shortline

> Commuter & Light Rail

## FEATURES

Monolithic 6,000 PSI Precast Concrete

Embedded Pandrol Shoulders

Galvanized E-Clip Fasteners & Nylon Insulators

Custom lengths and depths available

Manufactured under factory-controlled conditions, resulting in a smooth, consistent finish

## BENEFITS

No Cast-in-Place concrete forming

Includes standard rail fasteners

Easy access to rail

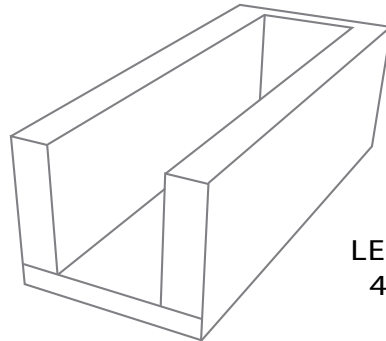

Less construction time

Less manpower needed on site, not exposed to the elements during production
