

# STORMCAPTURE<sup>®</sup>

## Detention

Provides cost-effective solutions for site-specific applications where stormwater needs to be detained and allowed to discharge at a controlled rate. StormCapture allows maximization of developable land by allowing detention to be placed efficiently and easily under parking lots and roadways with very little cover, as well as in non-traffic areas.

### MAINTAINABLE

- Designed for maintenance, not replacement
- Optional direct module access
- Open interior

### EFFICIENT

- Large storage capacity
- Not reliant on stone backfill for storage
- Unique LinkSlab<sup>®</sup> design reduces concrete

### STRUCTURALLY SUPERIOR

- Vehicular traffic loading design with as little as 6" of Earth cover
- No concrete footing required
- Designed for HS-20-44 for full truck load plus impact

### ECONOMICAL

- Competitive installed and lifetime cost
- Typically backfilled with existing site materials
- Large capacity yields smaller footprint
- Rapid and simple installation
