

## PROTECTING vital infrastructure.

Duralite™ is engineered to provide a durable, lightweight solution for providing protection and access to vital utility infrastructure. The lightweight design allows for safer installations while the uniquely strong material blend and construction doesn't sacrifice critical performance.

## Surprisingly Light. Exceptionally Strong.

The right fit for your needs—Duralite™ delivers unexpected Tier 15 and Tier 22 performance in the lightweight enclosure category. Engineered to withstand heavy loads, Duralite™ intelligently blends composite materials to provide durable, accessible security to our necessary infrastructure.

- Easy to handle and install. Many handholes can be lifted by one person.
- Chip and crack resistant
- Durable, single-piece body resists bowing during installation
- Fire resistant; following the ASTM D635 standards.
- Easy to modify with 18V power tools.
