Protect**

 **Oldcastle Infrastructure**<sup>™</sup>  
A CRH COMPANY

Oldcastle Infrastructure trench provides easy access to water and steam lines, gas lines, and electrical and communication cabling and wiring. Trench components have superior chemical resistance, strength, low water absorption, and substantial freeze/thaw resistance. Out trench is available in a variety of dimensions as well as custom sizing. Precast trench provides durability, convenience, and a maintenance free finish.

# More options. More strength

## Applications

- Power & control distribution & management
- Signal & communications distribution
- Fiber optic cable distribution & management
- Drainage runoff capture, containment & transport

## Benefits

- HS-20 Load Rated/rugged durability to protect vital connections
- Cast in C-channels for hanging racks to support conduits or pipe lines
- Custom heights
- Special lengths or angles
- Access doors/maintenance and inspection accessibility
- Steel or concrete cover option

4-A-019 Revision 8/2024

Trusted partnerships.  
Full scale solutions.
