

CARSON[®]

NexGen Ring and Cover

NON-FERROUS

LIGHTWEIGHT

HIGH-STRENGTH

UNIVERSAL FIT

MADE IN THE USA

A complete non-ferrous
SOLUTION.

Carson[®] NexGen ring and cover are lightweight, durable, and completely non-ferrous to eliminate AMR/AMI frequency interference. The ring retrofits many common meter pit diameters for easy ordering, inventory management, and installation. The ring and cover interface seamlessly with the Carson[®] NexGen meter pit for the best overall value for a residential meter pit system.

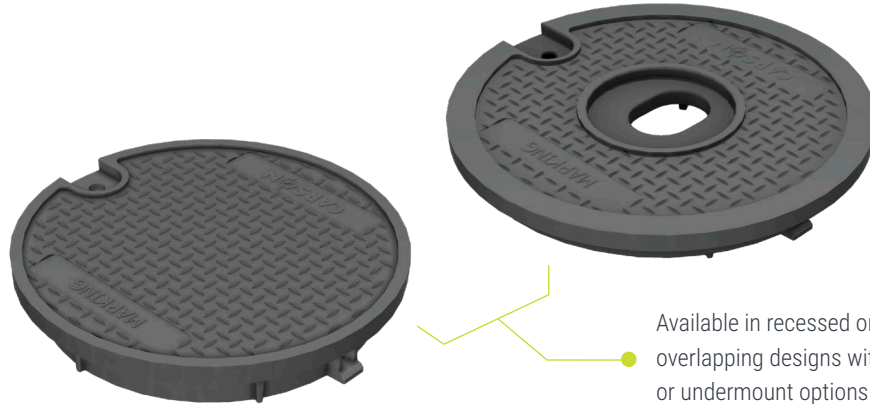

ALL NON-FERROUS

and ready for the future of AMR/AMI.

MADE IN THE USA

12" non-ferrous covers retrofit current market rings

Available in recessed or overlapping designs with AMR recess or undermount options

MADE IN THE USA

Non-ferrous, AMR friendly ring fits 18", 20", and 21" meter pits

Locating bosses for easy detection
