

PLASTIBETON[®]

Custom Covers

SAFE & ACCESSIBLE

DURABLE

FITS EXISTING TRENCH

TRUSTED
performance

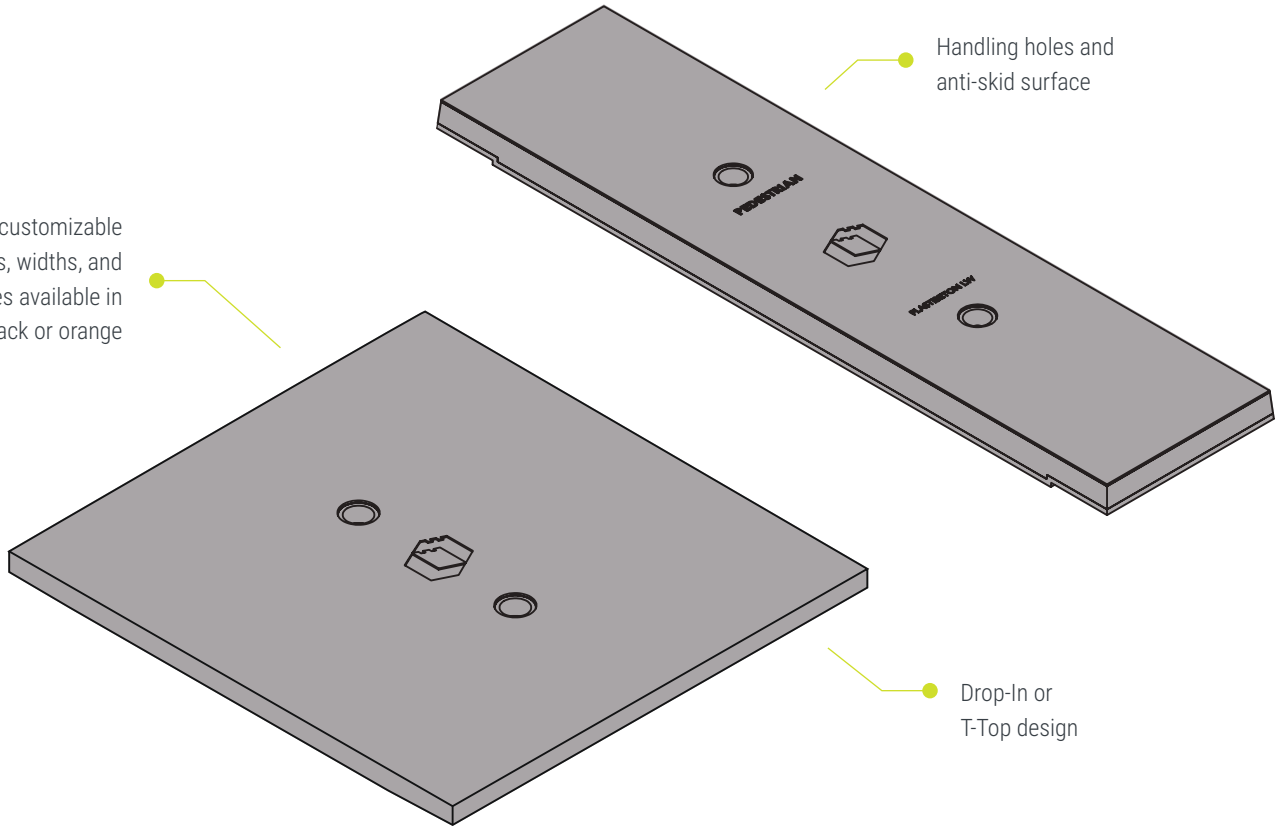

The most trusted traffic rated trench on the market, and ready for the most demanding environments. With a low resin content, Plastibeton[®] covers are not affected by acid, oils, or freeze/thaw cycles, which means they outlast and outperform both standard concrete and composite competition. Plastibeton[®] covers are available in custom lengths and widths to fit your existing trench and are the trusted choice for replacing cracked, broken or failing covers.
