

# HIGHLINE

## Sectionalizing Cabinets

**STRONG & LIGHTWEIGHT**

**EASY ACCESS**

**LARGE WORK AREA**

Enhanced  
**ACCESSIBILITY**

Lightweight, durably-constructed fiberglass primary sectionalizing cabinets are manufactured with our spray-up/lay-up process and are available in multiple sizes and designs for 15, 25 and 35KV applications. External ribs and step design provide rigidity, and pivot hinges provide enhanced accessibility and a large working area. Cabinets are fire and corrosion resistant and can be supplied with junctions and delivered ready for installation.

# DESIGNED

with the input of line personnel.

## Features & Benefits:

- | Single-phase, three-phase, and deferral cabinet designs are available.
- | Durable, heavy-duty fiberglass construction with reinforced stress areas. Strong, lightweight, corrosion resistant, and fire-retardant material.
- | UV stabilized gel coat provides superior weatherability.
- | Covers roll back to provide a large, open work area. Removable front panels are available on some models.
- | Junction mounting boards are easily removable for installation of load-break junctions.
- | Galvanized mounting plates and rails are standard. Stainless steel available.
- | Grounding available.
- | 15kV, 25kV or 35kV junctions available.
