

Solutions for Large Water Meters

Oldcastle Infrastructure offers innovative and reliable product solutions for customers installing and maintaining vaults for large water meters. Our extensive range of solutions is designed to meet the diverse needs of water management projects across North America. We deliver products that not only meet industry standards but also exceed expectations. Our vault solutions have faster lead times than other options, are easier to deliver, install and modify in the field, and have options and accessories that integrate seamlessly for a complete solution.
